

Global Lifecycle Solution Services Our Partner Program

We are pleased to introduce our new and exclusive Partner Program to all our valued clients. The past 18 months have been extremely difficult for most of us, and we are so thankful for your continued support throughout the pandemic. Therefore, we wanted to return our gratitude and reward your loyalty with further endorsements to your Global support package.

Launched for your benefit, we hope our new grading system will allow you to understand where your business sits within the Global family. And, in some cases, how else we can support you by increasing your grade.

Introducing Global's Partner Program, with Five Grades of Service.

Does your company use over 10,000 licenses per year? We only recommend opting for a Gold or Platinum service if you do. Our option of the Embedded Solution, where the latest WipeDrive Prime remote wiping software can be incorporated into devices, is only beneficial for larger corporations who hold the volume. Fantastic for off-site erasure, GDPR compliance and for further information, speak with your account manager.

Another way your subscription can be upgraded is through our new Referral Bonus Value. If you like our services and programs, simply refer a business to us! To show our gratitude, we will give you points in return, equating to a number of licenses for your referrals. In doing so, you will be increasing the awareness of Global while helping you move towards an upgrade.

If you would like to upgrade to the next level of Global Service, please contact your account manager. For more information, get in touch with us today.
